Fireside Chat With Ripple - Exploring Payments Innovation

Marcus Treacher

Senior VP - Customer
Success

Ripple

2020

Exploring Payments Innovation

Global Payments Today

The world is more global, but networks are more **fragmented**.

So payments are **slow, unreliable, expensive**.

Note: Example logos of payment networks can be customized based on audience

We Need a Future...

...where payments are **global, inclusive, accessible,** and a **great experience** no matter what.

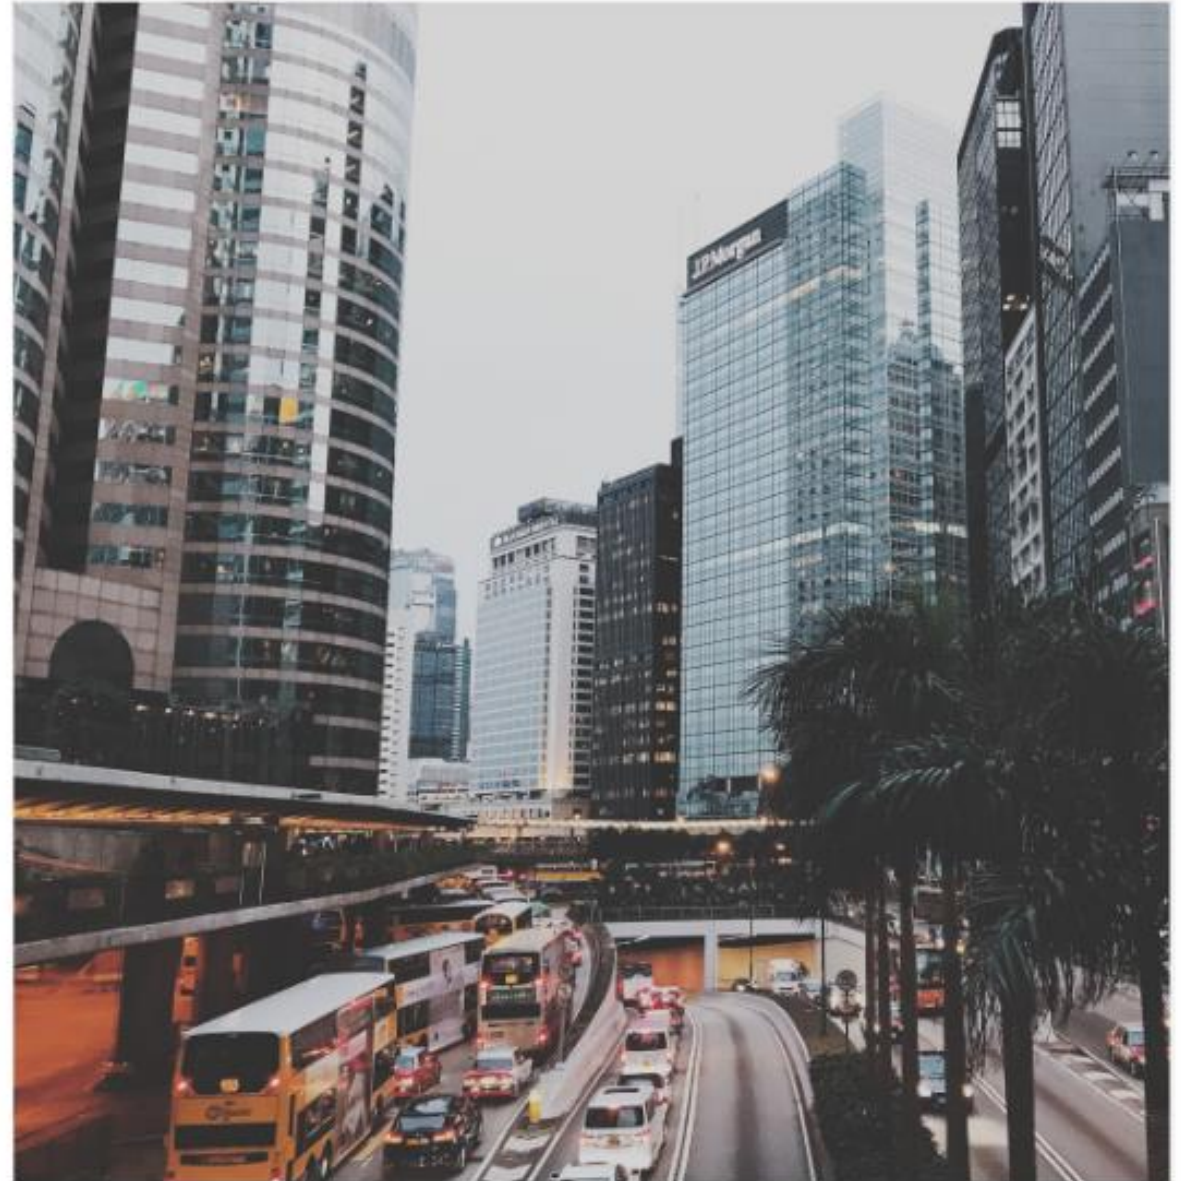

About Ripple

Founded in 2012

450+ employees in San Francisco, New York, London, Mumbai, Singapore, São Paulo, Reykjavík, Washington D.C. and Dubai

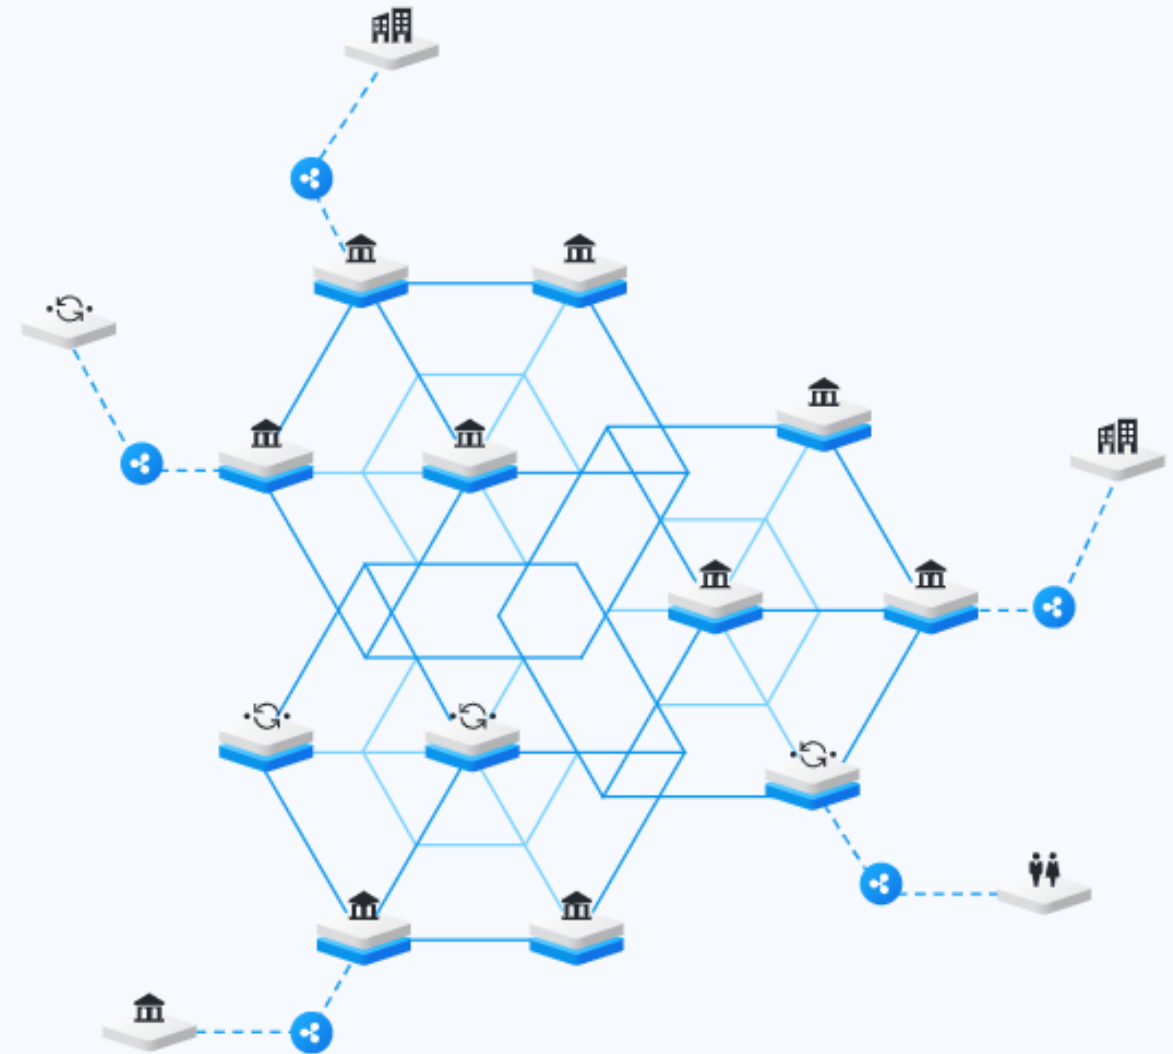

Provides enterprise blockchain-based solutions focused on cross-border payments

RippleNet Ecosystem

Enabling Global Payments for Everyone

RippleNet makes it easy for its diverse network of **300+ financial institutions worldwide** to enable faster, lower-cost payments around the world.

Fireside Chat

- How does ISO 20022 in countries worldwide impact cross-border payments? How realistic is the goal of interoperability among real-time systems in various countries?
- Is there a future for blockchain technology in business/wholesale payments? Many companies are focusing on retail payments - how does Ripple view both wholesale and retail?
- What are practical applications for blockchain outside of payments? Do you think there will be more widespread adoption as additional tangible use cases evolve, or is it hype?
- In terms of market dynamics, what role do banks play vs. non-bank providers? How is this changing?

Questions, Comments & Answer(s)?
